

# A recognised ability in the field of brazing alloys

**T**HESSCO a specialist in the metallurgy of silver based alloys. We are certified to ISO 9001, manufacturing and selling brazing alloys (silver-based and copper-phosphorus) in the form of wires, rods, strips, preforms, powders, pastes and fluxes for use in technical assemblies.

THESSCO B.V. can study and develop specific alloys to solve your brazing problems. Our knowledge and experience are a guarantee of our quality. By working closely with you, our research laboratories are constantly developing new products to anticipate future requirements.

*A guaranteed knowledge  
from people attentive to  
your needs.*
